

**High speed bandwidths**  
**Multi-carrier solutions**  
**Business-grade reliability**  
**Fully-managed to wires-only options**

### Find the best connections for your Customers

Today's businesses, large or small, increasingly depend on data connectivity to enable their customers, employees and partners to achieve their goals.

Whether in the form of real-time communication by voice or video, shared information through messaging and applications, or as a means to do business via e-commerce, data connectivity that is affordable, reliable and secure is a pre-requisite for most organisations to be effective.

This need for connectivity has seen an explosion in the variety of data networking services on offer and in the number of potential suppliers.

### So why choose TMS and our Data Services?

- **Wide range of options to suit all your specific customer needs**
- **From copper to fibre to basic broadband to dedicated ethernet and MPLS**

We can provide a whole diverse suite of connectivity options and help you unravel the myriad of products including ADSL, EFM, GEA, FTTC, MPLS, Leased line and Ethernet. This variety of choice allows you to match the ideal solution for any size, shape or type of business from sole trader to a data intensive enterprise.

### Fully managed

TMS is able to flexibly and competitively provide its Channel Partners with a cost-effective, managed wholesale data portfolio. Choose from an array of different supplier options and ensure best in breed solutions for your customers.

### Carrier-management, provisioning and installation processes

Let us manage the time-consuming carrier liaison including delivery updates, wayleaves and fibre capacity issues so that you can concentrate on delivering a great service to your customers and ultimately focus on more sales.

### Flexibility

Our carrier-independence ensures we can offer the full range of data services from an impressive list of operators. This guarantees that you will always be able to choose the most suitable product, price and delivery timescales to suit.

### Pricing

Our buying power and long-term carrier relationships ensure you can enjoy a wholesale cost advantage over and above dealing with each operator directly.

### Key Benefits to Partnering with TMS
